

KEVIN LU

AVID RESEARCHER
MEDICAL SCIENCES

PROFILE

Motivated Medical Sciences student with a strong interest in biomedical research and medicine. Experienced in analytical thinking, scientific communication, and collaborative problem-solving through coursework and extracurricular involvement (ask me more about this!). I have the goal to actively contribute meaningfully to projects, and gain early exposure to translational science. A personal experience with cancer has made me particularly interested in oncology-related research, however all medical research piques my interest!

MAIN EXPERIENCES

Charity Executive

Bachelor of Medical Sciences Student Association (BMSA)

Sept. 2025 - Present

Western University

- Promote connections between BMSc students and the broader community via outreach initiatives
- Organizing fundraising/awareness events for charitable causes, such as Stem Cell Club "Prof Panel" Collab

Chess/Academic Teacher

Self-Employed, Affiliated with Vincent Massey Secondary School

Aug. 2022 - Present

Windsor, Ontario

- Fostered critical thinking and strategic problem-solving by teaching chess tactics and game theory to middle-school students
- Developed lessons catered to students' unique needs
- Managed transactions with students and their parents

Charity Committee

Western Science Student Council (SSC)

Sept. 2025 - Present

Western University

- Hosted and booothed the "Letters to Veterans" event on remembrance day
- Continuing to organize fun volunteering opportunities and events for my peers in the science faculty

FIRST Robotics Design Leader

Vincent Massey Secondary School

Sept. 2022 - Sept 2024

Windsor, Ontario

- Mentored juniors in mechanical design, and software integration
- Successfully managed design resources under competition deadlines
- Delivered and refined award-winning robots

YOUREKA! Canada SI

Youreka! Canada Student Investigator

Feb. 2025 - May 2025

University of Windsor

- Compiled research data (using R) on the correlation of measles and vaccine rates internationally
- Used statistical analysis with my team to determine conclusions
- Presented our findings at a symposium to a panel of judges
